

I would like the FCC to know how K-LOVE serves me, in my community. Although I live in a suburb of Phx., AZ, K-LOVE provides me with service 24 hrs. day, seven days a week.

It would be a great loss to my community if K-LOVE were replaced by an LPFM station. I had been looking for many years for a station to provide the kind of inspirational programming that my entire family could listen to. If K-LOVE is removed, I will not be able to replace it. K-LOVE provides a service to my community which is essential. The station is one that not only provides good music, but goes beyond that. They offer many additional benefits to its listeners. PLEASE consider what a profound loss this would be to people, like myself, if K-LOVE is taken off the air.

Thank you,  
Terry Ballard
